This Moneth begins with some raine and showry weather, but good for the time of the yeare; but very cold clouds disperse to & fro, as though we should have much raine. Sunshine weather, with darke dayes, the wind blowing stiffe at South or South-west. Now we begin to talke of great transactions at home & abroad, but all to little purpose.

God blesse our Fleet at Sea, and forces at Land, and so ends this Moneth.

Full Moon 14 day, 26 min. past 7 at night.
Last quarter 21 day, 24 min. past 11 at high noon.

Of the Eclipses this Yeare, 1660.

THere will be two Eclipses this yeare of the Moone and one of the Sun, but not visible in our Horizon.

The first will be the 15. day of *Aprill*, 12. Minutes past 9. in the Morning.

Second will be 29. day of *Aprill*, 5. minutes past 6. in the Morning.

Third will be the 8. of *October* at noone, but not to be seene in our Horizon.

A description of the 4. Quarters of the yeare.

THe first quarter begins when the Sunne enters into the first point of Aries, which will bee the 11. day of March, 33. min. past 11. of the clocke at night.

The Summer quarter.

BEgins at the time when the Sun enters into the first point of Cancer, which will be upon the 10 day of June, at 19. min. past 11. of the clocke at night.

Autumne quarter.

BEgins at the time when the Sun enters into the first point of Libra, which will be upon the 12 day of September, 30. min. past 12. at noone.

The Winter quarter.

BEgins at the time when the Sun enters into the first point of Capricorne, which will be upon the 10 day of December, 2. minutes past 11. of the clocke at night.

Rules concerning Husbandry.

WHen you would Plant or Graft, consider where the wind bloweth, if it be in the South, it is very good for that purpose, but if it be North or East, it is not good.

It is good to Plant or graft generally the Moone increasing in these signes, *Taurus*, or *Aquarius* in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in *Taurus*, or *Aquarius*.

Cut timber to have it sound, in *December*, or *January*, in the wane of the Moone in *Aquarius* or *Pisces*.

Prune trees and pull off the moss in the moneth of *Feb.*

Plash hedges and Lop trees for fewell, that the heads may the sooner grow again, when the Moone is in *Aries*, or *Libra*, and in her increase.

Set young Quickers, from *September* to *March*.

Remove young trees in the last quart. of the ☾ when she is in ♈, ♌, ♐; and in these moneths *September*, *November*.

Set Vines in *February*, *March* or *September*, specially the Moone in *Aries*, *Libra*, *Scorpio*, in her increase.

Set Rose trees in the midst of *February*, the ☾ increasing.

Cut or prune trees in *March* or *April*, the Moon in *Taurus*, *Virgo* or *Capricorne*.

Gather fruit, as Apples, Pears, and the like, at the full ☾, in the after-noone, the weather being faire and dry.

Cut downe Hay presently after the full of the Moone.

Dung ground to prevent growing of weeds, the Moone increasing.

Sow Carret-seeds about the end of *February* or the beginning of *March*, the Moon increasing. Also, sow Onions, Turnips in *February* or *March*, at the wane of the Moone.

Sow Cucumbers and Millions in *February*, *March* or *April*, in a hot and faire day.

Sow Parsly, Fenael, and Annised, in *February* or *March* the full of the Moone.

Sow Marjerum, Violets, Time, Rosemary and Lavender in *February*, *March* or *April*, in the increase of the moone.

Sow Gilliflowers and Wall-flowers in *March* or *April*, the old of the moone.

Sow Hysop and Savory in *March* when the moone is old.

Sow double Marigolds in *February* or *March*, in the increase of the moone.

Sheare Sheepe at the increase of the moone.

The best time to Geld cattel the Moone being in *Sagitarius* or *Capricorne*.

Of Blood-letting, and some other Physicall Observations.

IN Youth let blood from the change to the first quarter, middle age, from the first quarter to the full. In Older years from the full to the last quarter. In old age, from the last quarter to the change.

But know, that under the age of 14. and above the age of 56. it is not good to bleed at all.

Againe, in the Canicular or Dog dayes, it is very hurtfull to take any Physick at all, unlesse there be great need, and if necessity hath no law, or rather, fore in such a case, the ... being desperate, the cure must be adventured.

Take a purgation when the Moone is in Trine, or Sexty aspect, with Venus decreasing in any of these three signes Cancer, Scorpio, or Pisces, and it will be sure to worke better, because when a moist Planet, in a moist signe hath sun aspect, the humours in the body are then stirred up and dry and so the better purged out, wherefore in this case, it cannot amisse to prepare humours by some thing that is laxative; and let this be done whilest the Moone is either in Gemini, Libra or Aquarius.

Take a vomit that it may worke throughly, when the Moone is in Aries, Taurus, or Capricorne; and know that the aspect of the Moone with Saturne, or Mars, or the Moone in the ought to be eschewed in the taking of medicines.

Finally, if necessity urge no hast, these observations are expedient: for it is a plaine truth, that the change of weather upon differing aspects, doth greatly change and alter mens bodies

Bills and Obligations, One to One.

Know all men by these presents, that I *John Ashles* of *Raymond* in the County of *Norf.* Yeoman, doe owe and am indebted unto *John Anoaks* of *Giton*, in the County aforesaid, Gentleman, the sum of One and twenty pounds of lawfull and lawfull money of England, to be paid to the above-named *John Anoaks*, his Heirs, Executors, Administrators, or Assignes, in and upon the first day of *May* next ensuing the date hereof, at or in the now dwelling house of the aforesaid *Anoaks*, for the which payment well and truly to be made, I bind my Heirs, Executors, and Administrators, in the summe of Forty two pounds of like moneys of England, firmly by these presents; In witnesse whereof I have hereunto set my hand and Seal, the first day of *June*, One thousand six hundred and sixty.
